# TECHNICAL EXCELLENCE AWARD

**CATEGORY 04 | METROPOLITAN EXCELLENCE AWARDS 2026**

## SUPPORTING EVIDENCE REPORT

**Nominee:** Thusitha Dhananjaya
**Designation:** Assistant Manager – Technical Support

## 1. Purpose and evidence sources

This report consolidates the nominee's supplied professional details, screenshots, award-ceremony photographs and 32 Google Form responses from technical colleagues. Peer feedback is not an independent audit or formal customer satisfaction survey. Dashboard results shown in photographs are examples of displayed source data, not independently verified business outcomes.

## 2. Peer rating snapshot

| Rating | Responses | Share |
|---|---|---|
| 5/5 | 28 | 87.5% |
| 4/5 | 3 | 9.4% |
| 3/5 | 0 | 0.0% |
| 2/5 | 0 | 0.0% |
| 1/5 | 1 | 3.1% |

Average: 4.78/5 (153 rating points ÷ 32 responses). 28 respondents (87.5%) rated 5/5; three rated 4/5; one rated 1/5.

## 3. Technical support and peer feedback

• Peer feedback describes troubleshooting across Canon copier/printer hardware, networking, computer hardware/software, scan-to-folder, scan-to-email and uniFLOW-related issues.

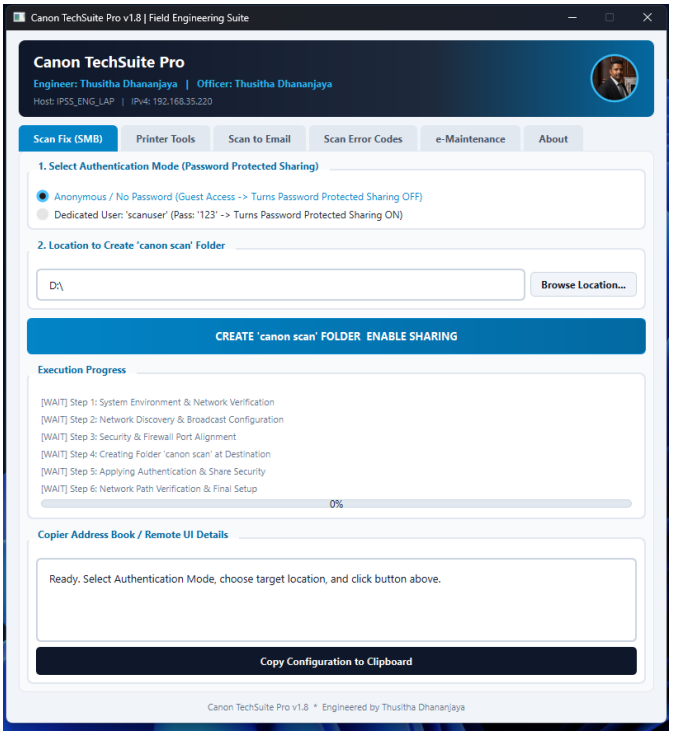

• Colleagues report remote step-by-step guidance and support outside normal office hours.

• One colleague reported more than three hours of phone support; another reported approximately six hours while working with Canon Singapore.

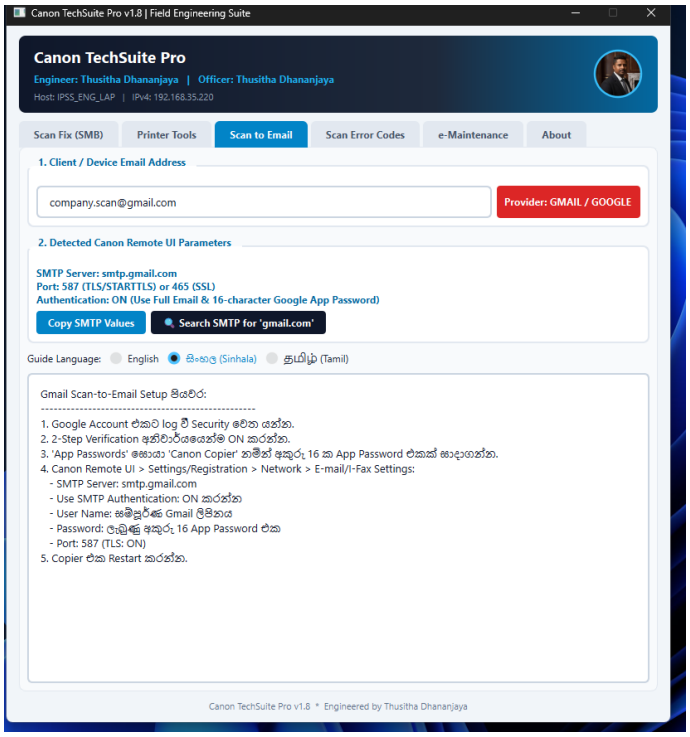

• Peer examples mention Huawei, Shangri-La, Synergy, PC connectivity, Windows errors and new-machine network setup.

## 4. Innovation — Canon TechSuite Pro v1.8

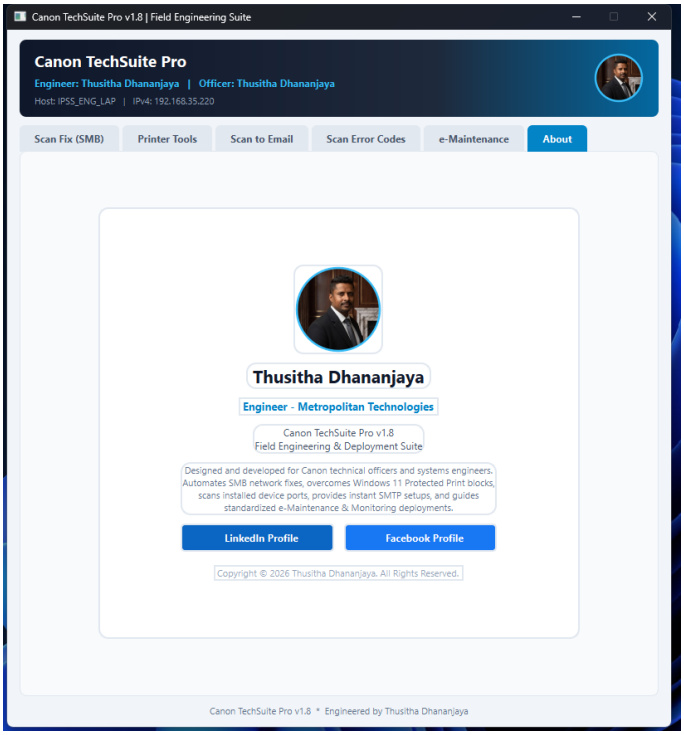

The screenshots identify Canon TechSuite Pro v1.8 as a Field Engineering Suite created by Thusitha Dhananjaya. The shown functions include SMB scan-folder setup, authentication choices, network/firewall checks, scan-to-email SMTP guidance and language selection for English, Sinhala and Tamil. The nominee reports testing the software in different environments and designing it to help engineers resolve routine issues quickly. No independently measured resolution-time saving or adoption figure was supplied.

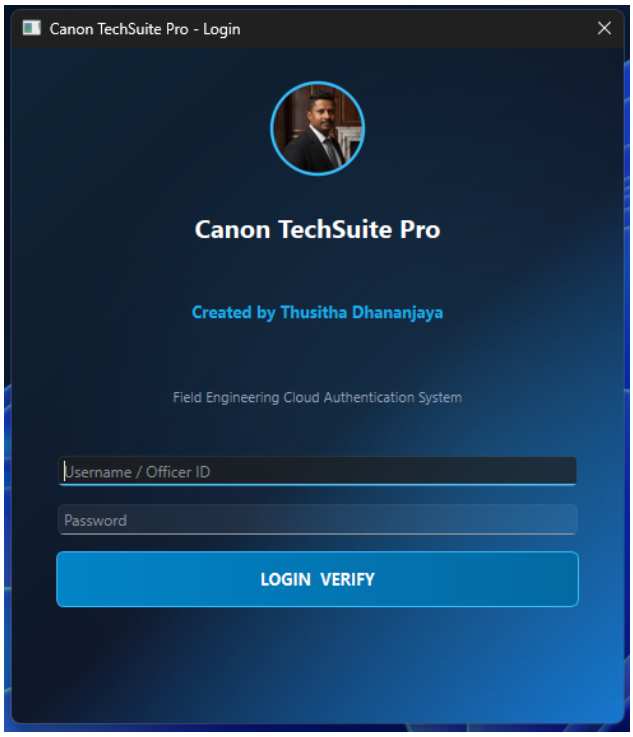

*Canon TechSuite Pro — SMB Scan Fix*

*Scan-to-email guidance in English, Sinhala and Tamil*

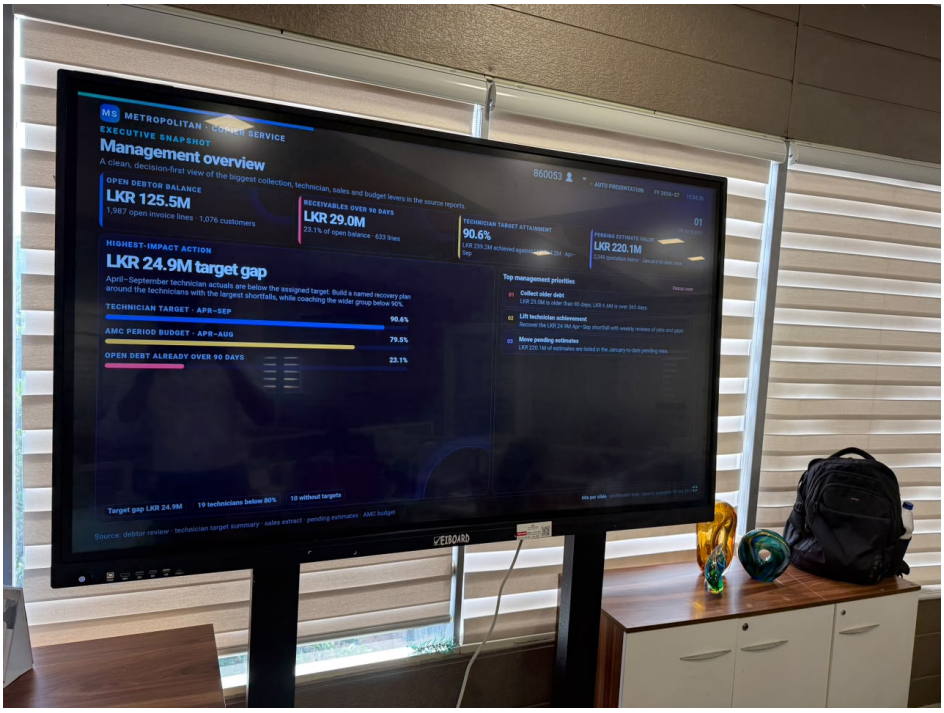

*About screen and described capabilities*

*Login and author identification*

## 5. Innovation — Smartboard performance-monitoring dashboard

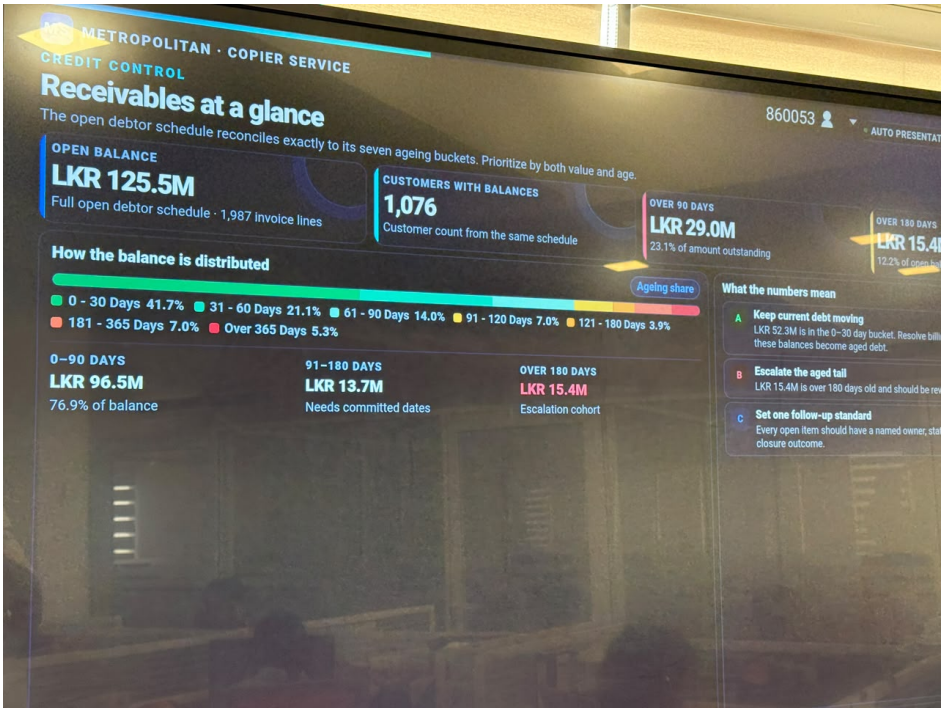

The nominee reports creating a 45-section dashboard for daily performance monitoring within Metropolitan's Customer Support & Base Marketing SBU, displayed on a Smartboard. Supplied photographs show technician target gaps, AMC budget performance, receivables ageing and management priorities. The dashboard remains under testing, so no verified performance improvement is claimed.

*Dashboard: technician target gaps and AMC budget performance*

*Dashboard: receivables and ageing*

*Dashboard: management overview and priorities*

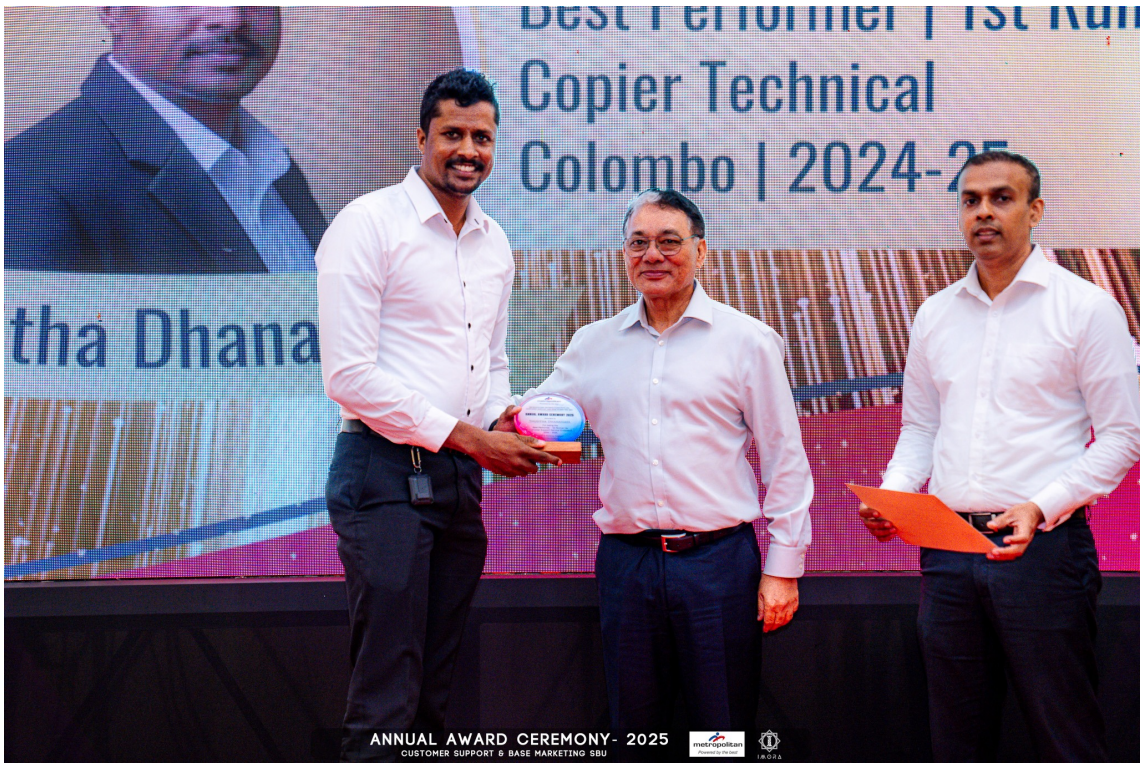

## 6. Training and knowledge sharing

The nominee reports training copier technical staff and field engineers before and after attending Canon training, sharing practical knowledge from his own experience and later from Canon training sessions. Suggested attachments include training slides, agendas, attendance records, certificates and participant feedback; these were not supplied in the current package.

## 7. Multimedia contribution beyond normal responsibilities

The supplied LinkedIn post describes the nominee's contribution to the 2024–2025 Annual Awards Ceremony on 22 November 2025: ceremony introduction video; winner animations for 67 recipients; LED video-wall visuals; 3D stage animations and idle motion graphics; budget presentation and achievement videos; visuals highlighting technical-building improvements and future goals; and a special recognition video for the Canon Service Meister 2024 achievement. The nominee also reports a Customer Support SBU profit-analysis video and multimedia work for 2024–2026.

The nominee reports that all requested deliverables were completed within five days of notification and without additional production cost. Dated requests/delivery messages and cost confirmation should be attached if available.

*Photograph supplied as evidence of award recognition at the 2025 ceremony.*

## 8. Evidence mapped to the official criteria

| Criterion / weight | Evidence and verification needs |
|---|---|
| Technical Quality and Accuracy — 30% | Peer feedback describes strong troubleshooting across Canon copier/printer hardware, computer hardware/software, networking, scan-to-folder, scan-to-email and uniFLOW-related issues. Colleagues report receiving step-by-step remote guidance for complex faults, including extended phone support. Supporting evidence: 32-response Google Form summary; Canon TechSuite Pro v1.8 screenshots; specific case records should be attached where available. A measured first-time-fix rate or rework KPI was not supplied. |
| Project Completion / Service Delivery Performance — 25% | The nominee provides remote support and knowledge-sharing to technical officers and field engineers across customer environments. He reports developing a 45-section Smartboard dashboard for daily performance monitoring; this remains in testing. For the 2024–2025 Annual Awards Ceremony, he reports delivering the introduction video, winner animations for 67 recipients, LED-wall visuals, 3D stage animations, budget/achievement videos and a Canon Service Meister 2024 recognition video. He reports completing requested multimedia work within five days of notification and without additional production cost. Attach final deliverables and dated request/approval records to verify timeline and cost. |
| Problem Solving and Innovation — 20% | Canon TechSuite Pro v1.8 is presented as a purpose-built field-engineering suite for recurring day-to-day issues. The screenshots show SMB scan-folder setup steps, authentication choices, network/firewall checks, scan-to-email SMTP guidance and language options for English, Sinhala and Tamil. The nominee reports testing it in different environments before use. The Smartboard dashboard has 45 sections and displays examples of technician target attainment, budget performance, receivables and management priorities; it is still being tested. Attach a demo, test checklist and version history if available. Resolution-time savings have not been independently measured in the supplied evidence. |
| Customer Satisfaction — 15% | Peer responses describe support in cases involving Huawei, Shangri-La, Synergy and other customer environments, including scanning, PC connectivity and network configuration. One colleague reported that a customer appreciated service during an extended support case. This is peer-reported feedback rather than a formal customer survey. Attach customer emails, case closure records or verified commendations where available; no formal customer satisfaction score was supplied. |
| Compliance and Safety Record — 10% | The supplied peer feedback and screenshots do not establish a formal safety/compliance score, incident rate or completion status for mandatory training. The nominee's manager/HR should confirm applicable compliance and safety records, required training and any relevant corrective actions before submission. No unsupported zero-incident claim is made. |

## 9. Professional profile

• Current role: Assistant Manager – Technical Support, Metropolitan Technologies (Pvt) Ltd; more than 11 years at Metropolitan, as reported by the nominee.

• Education: BSc (Hons) in Computing (Cyber Security), University of Greenwich, UK — Second Class Honours (1st Division), awarded 16 July 2026; Higher National Diploma in Network Engineering.

• Technical focus: Canon printing/document management, uniFLOW Online and On-Premises, scanning workflows, network/PC troubleshooting, escalation and field-engineer support.

• Prior recognition reported: Engineer of the Year 2022 at Metropolitan; supplied photograph for First Runner-up — Best Performer 2024–25, Colombo, Copier Technical.

## 10. Final attachment checklist

• ■ Google Form response export; keep respondent personal data private.

• ■ Canon TechSuite Pro demo, test checklist and any adoption/time-saving evidence.

• ■ Dashboard test status, data-source description and approval to share financial dashboard screenshots.

• ■ Training slides, agendas, attendance records and Canon training certificates.

• ■ Award videos/animations, SBU profit-analysis video, dated request/delivery evidence and no-extra-cost confirmation.

• ■ Service case records, customer commendations, validated service KPIs, and manager/HR safety/compliance confirmation.

## 11. Accuracy and verification note

This report is based on supplied information, screenshots, photographs and 32 Google Form responses. Respondent names, emails, phone numbers and NIC details are excluded. The report does not claim audited service outcomes, measured first-time-fix rate, verified downtime savings, quantified dashboard impact or a zero-incident safety record. Confirm employee number, contact details, nominator details and manager/HR validation before submission.
